## ► ORIGIN OF THE SEMINAR

In 2021, at the International Security and Defence Fair (FEINDEF), the Guardia Civil organized the forum entitled *"Incorporating the Demographic Challenge into the 2030 Security Model"*.

Various initiatives and measures proposed by GC and other **police forces with security responsibilities in the depopulated areas** were debated, aimed at modernization, generating public value and contributing to the Demographic Challenge.

Taking advantage of the incomparable framework of the **Spanish Presidency of the Council of the European Union 2023**, and with the aim of broadening knowledge and planning better approaches, we have designed a high-level expert seminar.

### Plan de la Guardia Civil ante el Reto Demográfico
